Hi Verena,

Thanks for drafting this letter and for giving me and Denise the opportunity to review (I also shared with Emily Seidman in OGC, who used to be our EE expert). Attached is our review of the draft, which includes some suggested additional language. If it would be helpful to discuss the suggested contents of the letter in more detail, please just let us know. Happy to set something up.

Thanks again!

Subject: REVIEW: Draft Response Letter to DOEE EE Request

Hi Denise and Libby,

Meighan and I have put together the attached draft response letter the R3 RA would sign and send to DC in response to their request for data exclusion of 2020 ozone data under the Exceptional Events Rule.

Please review and provide feedback when you have a chance.

Thank you!
